## DETAILED ACTION

### *Specification*

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Hybrid optical amplifier with specific coupler for routing pumping light.

### *Allowable Subject Matter*

2. Claims 1, 4-14, and 21-22 are allowed.
3. Regarding claim 21, the prior art does not teach or make obvious the use of
  - The fiber grating reflecting the second pump light at a specific wavelength provided to the fiber grating so that the reflected second pump light counterpropagates through the rare-earth-doped fiber amplification medium with the signal light.

within the context of claim 21 taken as a whole.

4. Regarding claim 22, the prior art does not teach or make obvious the use of
  - The optical coupler causes the second pump light at the specific wavelength provided to the optical coupler to be introduced to the rare-earth-doped optical amplification medium so that the introduced second pump light

copropagates through the rare-earth-doped optical amplification medium with the signal light.

---

within the context of claim 22 taken as a whole.

5. Regarding claim 1, the prior art does not teach or make obvious the use of
- Said pumping introducing means introduces a part or all of said counterpropagating pumping light beam at a specific wavelength of said counterpropagating pumping light beams from said counterpropagating pumping sources as a pumping light beam for said rare-earth-doped optical amplification medium to said rare-earth-doped optical amplification medium, and transmits at least said copropagating pumping light beam at said specific wavelength from said copropagating pumping source as another pumping light beam for said rare-earth-doped optical amplification medium to said rare-earth-doped optical amplification medium.

within the context of claim 1 taken as a whole.

### ***Conclusion***

6. The prior art which is cited but not relied upon is considered pertinent to applicant's disclosure.
